reconfigurable computing rc systems have generated considerable interest in the embedded and high performance computing communities over the past two decades with eld programmable gate arrays fpgas as the leading technology at the helm of innovation in this discipline achieving orders of magnitude performance and power improvements using fpgas over traditional microprocessors is not uncommon for well suited applications but even with two decades of research and technological advances fpga design still presents a substantial challenge and often necessitates

hardware design expertise to exploit its true potential although the challenges to address the design productivity issues are steep the promise and the potential of the rc technology in terms of performance power size and versatility continue to attract application design engineers and rc researchers alike the international symposium on applied reconfigurable computing arc aims to bring together researchers and practitioners of rc systems with an emphasis on practical applications and design methodologies of this promising technology this year's arc symposium the sixth arc symposium was held in bangkok thailand during march 17-19 2010 and attracted papers in three primary focus areas rc applications rc architectures and rc design methodologies

the symposium operations research 2007 was held from september 5-7 2007 at the saarland university in saarbrücken this international conference is at the same time the annual meeting of the german operations research society for the transition in germany and many other countries in europe from a production orientation to a service society combined with a continuous demographic change generated a need for intensified operations research activities in this area on that account this conference has been devoted to the role of operations research in the service industry the links to operations research are manifold and include many different topics which are particularly emphasized in scientific sections of or 2007 more than 420 participants from 30 countries made this event very international and successful the program consisted of three primary eleven semi-plenary and more than 300 contributed presentations which had been organized in 18 sections during the conference the gor dissertation and diploma prizes were awarded we congratulate all winners especially professor wolfgang domschke from the dachau university of technology on receiving the gor scientific prize award
